## ROLLIN' WITH THE BLUES BOSS

Canada's own **Kenny "Blues Boss" Wayne** is one of the busiest artists in the international blues community.

With special guests **Eric Bibb** and **Dianna Greenleaf**, and produced by **Tom Lavin** (Powder Blues), Wayne hammers out rockin' boogie woogie, deeply felt blues, and puts a fresh coat of paint on good old-fashioned roots rock and roll. A multiple award winner, he is a monster pianist, and soulful singer, who captures the essence of old school blues and boogie while sounding totally fresh and contemporary.

**"There's no boogie-woogie-blues piano man out there today who pounds the 88's with his conviction."** — Chicago Sun-Times
